LETTER OF RECOMMENDATION

TO WHOM IT MAY CONCERN,

It is with great pleasure that we write this Letter of Recommendation for **Sumiksha Solanki**, who has successfully completed their virtual internship in **Data Science** at Codomax Digital Solutions.

Throughout the internship program, Sumiksha successfully completed all assigned technical milestones and projects with outstanding quality. They demonstrated a strong command of technical tools, outstanding problem-solving skills, and a highly analytical approach to developing robust solutions.

Beyond technical aptitude, Sumiksha exhibited excellent work ethic, professional communication, and a strong drive to learn and implement new methodologies. They consistently met deadlines and demonstrated the potential to excel in high-performing engineering environments.

We are confident that Sumiksha will be a highly valuable asset to any team they join. We recommend them without reservation for future academic or professional engagements and wish them continued success.

Best Regards,

Program Coordinator
Codomax Digital Solutions
